

Stirrer, Magnetic, Battery-Powered

Product #:	2163600
USD Price:	Contact Hach
Available	

Portable, light-weight stirring ideal for field use where no electricity is available. It can be used for up to 24 hours of continuous operation, mixing up to 1 liter with a maximum stirring speed of 900 rpm using one "D" sized battery. Continuous operation time greatly extended if two "D" sized batteries are used. Dimensions: 9 ¼" x 5" x 3 ½"H. **Note: For optimal performans, do not use stirring bars longer than 1 inch.**

Portable and compact

Ideal for field use where electricity is not available.

Easy to use

Operates on 1 or 2 "D" batteries; 2 batteries will provide approximately 16 days of continuous operation

Adjustable speed control

Speed control knob with separate on/off switch allows the stirrer to operate up to 900RPM.

Durable

Made with chemical-resistant polypropylene.

Reliable

Mix up to 1L of liquids
