

Previously known as: VibraGuard® 07-111

Vibration

Heavy Duty

## Heavy-duty nitrile safety gloves, minimizing the risks and effects of harsh vibrations

- **Improved tactility:** ActivArm® 07-111 work gloves' half-finger design ensures precision handling, enabling wearers to use power tools with ease and deftly handle screws, nails and small parts
- **Elevated comfort:** These abrasion-resistant gloves' breathable cotton back provides comfort in warm work environments
- **Increased protection:** Gel foam padding in the thumb, index finger and palm area reduces vibration, protecting hands against shock impacts and potential instances of hand-arm vibration syndrome (HAVS)
- **Optimized durability:** Owing to their nitrile coating, ActivArm® 07-111 protective gloves offer greater levels of snag and abrasion resistance
- **Genuine convenience:** These launderable nitrile work gloves are silicone-free, making them suitable for various manufacturing applications and preventing contaminant transfer to metal before painting

#### Industries

- Automotive
- Metal fabrication
- Agriculture
- Automotive Aftermarket
- Oil and gas

#### Applications

- Handling metal sheets & panels
- Metalworking & assembly operations
- Handling rough machined metal parts
- Handling materials with sharp or rough edges

Previously known as: VibraGuard® 07-111

#### Key Features

- **Half-finger design:** For safety gloves that ensure precision handling
- **Breathable cotton back:** Greater comfort in warm work environments
- **Vibration gel foam padding:** Shock and vibration absorption

#### Performance Standards & Regulatory Compliance
