

ePTFE Disc Membrane Filters

Specifications

Materials	Membrane	ePTFE
Physical Properties	Filter Diameter	25mm/37mm/47mm/90mm/210x297mm
	Pore Size	1.0µm/5.0µm
	Thickness	120µm
	Filtration Efficiency	>99.99%@0.3µm
Sterility	Delivery Condition	Nonsterile
Package	Pack Size	5pcs/25pcs

Features

- Naturally hydrophobic, blocking liquid and mist moisture
- Does not adsorb gaseous components
- Low chemical background
- Super-high strength, easy handling, good resistance to deformation

Application

- For CO, SO₂, NO_x, O₃, etc. automatic detection equipment
