

Orion Pro Star MP218 pH/ion, conductivity and DO bench meter pH and conductivity kit

Designed to provide accurate and reliable pH, ORP, ion, conductivity, TDS, salinity, resistivity, DO, barometric pressure and temperature analysis, the Orion Pro Star MP218 bench meter is well suited for labs that desire a modern meter with advance performance. Featuring a 7-in., high-resolution color display with responsive capacitive touchscreen, the Orion Pro Star meter focuses on ensuring an easy to use, innovative meter for your testing needs. The Orion Pro Star meter offers onscreen guidance with step-by-step instructions and supports GLP compliance with date and time stamped logs.

Orion Pro Star MP218 pH/ion, conductivity and dissolved oxygen bench meters are designed to provide accurate and reliable testing in laboratories that need a modern, easy-to-operate meter with advanced performance and reliable data reporting.
