

Cimarec 10x10 Stir 230V

Get precise stirring control for routine protocols using Thermo Scientific™ Cimarec+™ Series digital shakers. The Cimarec+ Series agitators are available in three sizes, offering flexibility: from micro-scale chemistry applications to production operations.

Advanced technology

- Stir-Trac is an innovative technology that offers low-speed mixing, smooth speed control, and strong magnetic coupling
- Robust and flexible design
- Ceramic or aluminium surfaces
- Easy-to-read LED display for stirring
- Raised screen design protects electronics from spills
- Optional splash guard
- Variable size for different sample volumes
