

Cimarec Basic 7x7 hotplate Stirrer 120V

The sleek, rugged design of the Thermo Scientific Cimarec Basic Heated Magnetic Stirrer combines performance and economy.

Ideal for general purpose stirring at speeds up to 2500 rpm.

- Reaches maximum temperature in less than 8 minutes
- Control knobs allow precise temperature and speed control
- Solid ceramic top plate is easy to clean and resistant to acids and alkalis
- New top plate design reduces the chances of breakage
- Spill conduction design deflects spills away from contact with internal components
- The integral ring bracket accommodates a 0.5in bracket rod. (1.3 cm) diameter Stir bar with TFE coating
