

SET SHELF SYSTEM GREX VIOS 250

- Maximize the capacity, increase throughput and optimize cell growth in your lab using the CultiMaxx shelving system in a range of large capacity CO₂ Incubators.
- Maximize incubator space
- These shelving systems are designed to support scale-out of the G-Rex 500M-CS* in cell therapy production.
- With an in-depth review of the shelving design, this new system provides up to a 150% increase in capacity for the G-Rex, or another way to look at it: 2 1/2 incubators in 1.
- Easy installation
- Shelving systems are retrofittable and can be self-installed.
- *G-Rex is a registered trademark of Wilson Wolf Corporation. G-Rex bioreactors must be ordered from Wilson Wolf Corporation.
