

Five inner door option for Thermo Scientific TSE400 TSD400 Forma 900 and 7000 400 box 23cf upright freezers

Reduce cold air loss and improve temperature recovery after closing the door with Thermo Scientific™ Forma Interior Door Kits™, an alternative to the factory-installed door of your upright ULT freezer.

Our vertical -86°C models already include four interior doors. The 8600 and 900 Series five interior door option includes five powder-coated interior doors and an additional shelf.
