## 3. Composition/information on ingredients

### Substance

| Chemical name                 | Common name and synonyms | CAS number | %   |
|-------------------------------|--------------------------|------------|-----|
| Heparin Sodium Identification | Heparin, sodium salt     | 9041-08-1  | 100 |

## 4. First-aid measures

|                     |                                                                                                                                                           |
|---------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Inhalation</b>   | If breathing is difficult, remove to fresh air and keep at rest in a position comfortable for breathing. Call a physician if symptoms develop or persist. |
| <b>Skin contact</b> | Rinse skin with water/shower. Get medical attention if irritation develops and persists.                                                                  |

|                                                                               |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
|-------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Eye contact</b>                                                            | Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if irritation develops and persists.                                                                                                                                                                                                                                                                                                                                                        |
| <b>Ingestion</b>                                                              | Rinse mouth thoroughly. If ingestion of a large amount does occur, call a poison control center immediately.                                                                                                                                                                                                                                                                                                                                                                                                                           |
| <b>Most important symptoms/effects, acute and delayed</b>                     | Irritation of eyes and mucous membranes. Bleeding.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| <b>Indication of immediate medical attention and special treatment needed</b> | Provide general supportive measures and treat symptomatically. Slow infusion of protamine sulfate 1% solution will neutralize heparin sodium. However, protamine sulfate can cause hypotensive and anaphylactoid reactions, and should only be administered when resuscitation techniques and treatment of anaphylactoid shock are available. (PDR)                                                                                                                                                                                    |
| <b>General information</b>                                                    | Remove from exposure. Remove contaminated clothing. For treatment advice, seek guidance from an occupational health physician or other licensed health-care provider familiar with workplace chemical exposures. In the United States, the national poison control center phone number is 1-800-222-1222. If person is not breathing, give artificial respiration. If breathing is difficult, give oxygen if available. Persons developing serious hypersensitivity (anaphylactic) reactions must receive immediate medical attention. |

## 5. Fire-fighting measures

|                                                                      |                                                                                                                                                                                        |
|----------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Suitable extinguishing media</b>                                  | Foam. Dry chemical or CO2. Use fire-extinguishing media appropriate for surrounding materials.                                                                                         |
| <b>Unsuitable extinguishing media</b>                                | None known.                                                                                                                                                                            |
| <b>Specific hazards arising from the chemical</b>                    | No unusual fire or explosion hazards noted.                                                                                                                                            |
| <b>Special protective equipment and precautions for firefighters</b> | Wear suitable protective equipment.                                                                                                                                                    |
| <b>Fire-fighting equipment/instructions</b>                          | Use water spray to cool unopened containers. As with all fires, evacuate personnel to a safe area. Firefighters should use self-contained breathing equipment and protective clothing. |
| <b>Specific methods</b>                                              | Use standard firefighting procedures and consider the hazards of other involved materials. Cool containers exposed to flames with water until well after the fire is out.              |

## 6. Accidental release measures

|                                                                            |                                                                                                                                                                                                                                                                                                                          |
|----------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Personal precautions, protective equipment and emergency procedures</b> | Keep unnecessary personnel away. Wear appropriate personal protective equipment. Avoid inhalation of dust from the spilled material. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. For personal protection, see section 8 of the SDS. |
| <b>Methods and materials for containment and cleaning up</b>               | For waste disposal, see section 13 of the SDS. Avoid the generation of dusts during clean-up. Sweep up or vacuum up spillage and collect in suitable container for disposal. Clean surface thoroughly to remove residual contamination.                                                                                  |

## 7. Handling and storage

|                                                                     |                                                                                                                                                                                                                                                                                                             |
|---------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Precautions for safe handling</b>                                | As a general rule, when handling USP Reference Standards, avoid all contact and inhalation of dust, mists, and/or vapors associated with the material. Clean equipment and work surfaces with suitable detergent or solvent after use. After removing gloves, wash hands and other exposed skin thoroughly. |
| <b>Conditions for safe storage, including any incompatibilities</b> | Store in tight container as defined in the USP-NF. This material should be handled and stored per label instructions to ensure product integrity.                                                                                                                                                           |

## 8. Exposure controls/personal protection

### Exposure limit values

#### Industrial Use Material

|                                               | Type | Value             |
|-----------------------------------------------|------|-------------------|
| Heparin Sodium Identification (CAS 9041-08-1) | TWA  | 200 micrograms/m3 |

### Biological limit values

No biological exposure limits noted for the ingredient(s).

### Appropriate engineering controls

Airborne exposure should be controlled primarily by engineering controls such as general dilution ventilation, local exhaust ventilation, or process enclosure. Local exhaust ventilation is generally preferred to general exhaust because it can control the contaminant at its source, preventing dispersion into the work area. An industrial hygiene survey involving air monitoring may be used to determine the effectiveness of engineering controls. Effectiveness of engineering controls intended for use with highly potent materials should be assessed by use of nontoxic surrogate materials. Local exhaust ventilation such as a laboratory fume hood or other vented enclosure is recommended, particularly for grinding, crushing, weighing, or other dust-generating procedures.

## Individual protection measures, such as personal protective equipment

|                                       |                                                                                                                                                                                                                                                                                                                                                                                            |
|---------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Eye/face protection</b>            | Safety glasses with sideshields are recommended. Face shields or goggles may be required if splash potential exists or if corrosive materials are present. Approved eye protection (e.g., bearing the ANSI Z87 or CSA stamp) is preferred. Maintain eyewash facilities in the work area.                                                                                                   |
| <b>Skin protection</b>                |                                                                                                                                                                                                                                                                                                                                                                                            |
| <b>Hand protection</b>                | Chemically compatible gloves. For handling solutions, ensure that the glove material is protective against the solvent being used. Use handling practices that minimize direct hand contact. Employees who are sensitive to natural rubber (latex) should use nitrile or other synthetic nonlatex gloves. Use of powdered latex gloves should be avoided due to the risk of latex allergy. |
| <b>Other</b>                          | For handling of laboratory scale quantities, a cloth lab coat is recommended. Where significant quantities are handled, work clothing may be necessary to prevent take-home contamination.                                                                                                                                                                                                 |
| <b>Respiratory protection</b>         | Where respirators are deemed necessary to reduce or control occupational exposures, use NIOSH-approved respiratory protection and have an effective respirator program in place (applicable U.S. regulation OSHA 29 CFR 1910.134).                                                                                                                                                         |
| <b>General hygiene considerations</b> | Handle in accordance with good industrial hygiene and safety practice.                                                                                                                                                                                                                                                                                                                     |

## 9. Physical and chemical properties

|                                                     |                                                                              |
|-----------------------------------------------------|------------------------------------------------------------------------------|
| <b>Appearance</b>                                   | White to beige powder.                                                       |
| <b>Physical state</b>                               | Solid.                                                                       |
| <b>Form</b>                                         | Powder.                                                                      |
| <b>Odor</b>                                         | Odorless or almost odorless.                                                 |
| <b>Odor threshold</b>                               | Not available.                                                               |
| <b>pH</b>                                           | Not available.                                                               |
| <b>Melting point/freezing point</b>                 | Not available.                                                               |
| <b>Initial boiling point and boiling range</b>      | Not available.                                                               |
| <b>Flash point</b>                                  | Not available.                                                               |
| <b>Evaporation rate</b>                             | Not available.                                                               |
| <b>Flammability (solid, gas)</b>                    | Not applicable.                                                              |
| <b>Upper/lower flammability or explosive limits</b> |                                                                              |
| <b>Flammability limit - lower (%)</b>               | Not available.                                                               |
| <b>Flammability limit - upper (%)</b>               | Not available.                                                               |
| <b>Explosive limit - lower (%)</b>                  | Not available.                                                               |
| <b>Explosive limit - upper (%)</b>                  | Not available.                                                               |
| <b>Vapor pressure</b>                               | Not available.                                                               |
| <b>Vapor density</b>                                | Not available.                                                               |
| <b>Relative density</b>                             | Not available.                                                               |
| <b>Solubility in water</b>                          | Freely soluble.                                                              |
| <b>Auto-ignition temperature</b>                    | Not available.                                                               |
| <b>Decomposition temperature</b>                    | Not available.                                                               |
| <b>Viscosity</b>                                    | Not available.                                                               |
| <b>Other information</b>                            |                                                                              |
| <b>Chemical family</b>                              | Glycosaminoglycan.                                                           |
| <b>pH in aqueous solution</b>                       | 5 - 7.5 (1% solution)                                                        |
| <b>Solubility (other)</b>                           | Practically insoluble in alcohol, in acetone, in benzene, and in chloroform. |

## 10. Stability and reactivity

|                                           |                                                                                                  |
|-------------------------------------------|--------------------------------------------------------------------------------------------------|
| <b>Reactivity</b>                         | None known.                                                                                      |
| <b>Chemical stability</b>                 | Material is stable under normal conditions.                                                      |
| <b>Possibility of hazardous reactions</b> | No dangerous reaction known under conditions of normal use.                                      |
| <b>Conditions to avoid</b>                | Contact with incompatible materials.                                                             |
| <b>Incompatible materials</b>             | Strong oxidizing agents.                                                                         |
| <b>Hazardous decomposition products</b>   | Irritating and/or toxic fumes or gases. Emits toxic fumes under fire conditions. NOx, SOx, Na2O. |

## 11. Toxicological information

### Information on likely routes of exposure

|                     |                              |
|---------------------|------------------------------|
| <b>Ingestion</b>    | Not classified.              |
| <b>Inhalation</b>   | Classification not possible. |
| <b>Skin contact</b> | Classification not possible. |
| <b>Eye contact</b>  | Causes eye irritation.       |

**Symptoms related to the physical, chemical, and toxicological characteristics** Heparin (injection; infusion): Nosebleeds. Blood in urine. Tarry stools. Bruising. Increased bleeding time. Hair loss.

**Delayed and immediate effects of exposure** Heparin (injection; infusion): Thrombocytopenia. Kidney function impairment. Hypersensitivity. Osteoporosis.

**Cross sensitivity** Persons sensitive to beef or pork may be sensitive to this material also.

**Medical conditions aggravated by exposure** Heparin (injection; infusion): Bleeding disorders such as thrombocytopenia and hemophilia. Active bleeding. Stomach ulcers. Kidney or liver impairment. Hypertension.

### Acute toxicity

| Product                                       | Species | Test Results |
|-----------------------------------------------|---------|--------------|
| Heparin Sodium Identification (CAS 9041-08-1) |         |              |
| <b>Acute</b><br><b>Oral</b>                   | Mouse   | > 5000 mg/kg |
|                                               | Rat     | > 5000 mg/kg |

**Skin corrosion/irritation** Classification not possible.

**Serious eye damage/eye irritation** Causes eye irritation.

### Local effects

Irritancy  
Result: Positive  
Species: Rabbit  
Organ: Eye  
Severity: Mild

### Respiratory or skin sensitization

**Respiratory sensitization** Not classified.  
Rare occurrences of anaphylactic reactions following therapeutic use of this material have been reported.

**Skin sensitization** Not classified.  
Rare occurrences of dermal hypersensitivity reactions with therapeutic use of this material have been reported.

**Germ cell mutagenicity** Classification not possible.  
Data from germ cell mutagenicity tests were not found.

**Carcinogenicity** Classification not possible.  
This product is not considered to be a carcinogen by IARC, ACGIH, NTP, or OSHA.

**Reproductive toxicity** Not classified.

### Reproductivity

10 mg/kg/day (subcutaneous), NOAEL - fertility, fetotoxicity  
Species: Rat  
10000 mg/kg/day (intravenous), LOAEL - fetotoxicity  
Species: Rat  
2500 mg/kg/day (intravenous), LOAEL - fetotoxicity  
Species: Rabbit

**Specific target organ toxicity - single exposure** Not classified.

**Specific target organ toxicity - repeated exposure** Not classified.

**Aspiration hazard** Not classified.

## 12. Ecological information

**Ecotoxicity** No ecotoxicity data noted for the ingredient(s).

**Persistence and degradability** Not available.

**Bioaccumulative potential** Not available.

**Mobility in soil** Not available.

**Other adverse effects** Not available.

### 13. Disposal considerations

**Disposal instructions** Dispose in accordance with all applicable regulations. Under RCRA, it is the responsibility of the user of the product to determine, at the time of disposal, whether the product meets RCRA criteria for hazardous waste.

**Local disposal regulations** Dispose in accordance with all applicable regulations.

**Hazardous waste code** The waste code should be assigned in discussion between the user, the producer and the waste disposal company.

**Waste from residues / unused products** Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).

**Contaminated packaging** Empty containers should be taken to an approved waste handling site for recycling or disposal. Since emptied containers may retain product residue, follow label warnings even after container is emptied.

### 14. Transport information

**DOT**  
Not regulated as dangerous goods.

**IATA**  
Not regulated as dangerous goods.

**Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code** Not available.

**General information** It is the shipper's responsibility to determine the correct transport classification at the time of shipment.

### 15. Regulatory information

**US federal regulations** CERCLA/SARA Hazardous Substances - Not applicable.

All components are on the U.S. EPA TSCA Inventory List.  
This product is a "Hazardous Chemical" as defined by the OSHA Hazard Communication Standard, 29 CFR 1910.1200.

**Superfund Amendments and Reauthorization Act of 1986 (SARA)**

**Hazard categories** Immediate Hazard - Yes  
Delayed Hazard - No  
Fire Hazard - No  
Pressure Hazard - No  
Reactivity Hazard - No

**SARA 302 Extremely hazardous substance**  
Not listed.

**SARA 311/312 Hazardous chemical** No

**SARA 313 (TRI reporting)**  
Not regulated.

**Other federal regulations**

**Safe Drinking Water Act (SDWA)** Not regulated.

**Food and Drug Administration (FDA)** Not regulated.

**US state regulations**

**US. California Proposition 65**  
California Safe Drinking Water and Toxic Enforcement Act of 1986 (Proposition 65): This material is not known to contain any chemicals currently listed as carcinogens or reproductive toxins.

**International Inventories**

| Country(s) or region | Inventory name                                                         | On inventory (yes/no)* |
|----------------------|------------------------------------------------------------------------|------------------------|
| Australia            | Australian Inventory of Chemical Substances (AICS)                     | Yes                    |
| Canada               | Domestic Substances List (DSL)                                         | Yes                    |
| Canada               | Non-Domestic Substances List (NDSL)                                    | No                     |
| China                | Inventory of Existing Chemical Substances in China (IECSC)             | Yes                    |
| Europe               | European Inventory of Existing Commercial Chemical Substances (EINECS) | No                     |
| Europe               | European List of Notified Chemical Substances (ELINCS)                 | No                     |

| Country(s) or region        | Inventory name                                                    | On inventory (yes/no)* |
|-----------------------------|-------------------------------------------------------------------|------------------------|
| Japan                       | Inventory of Existing and New Chemical Substances (ENCS)          | No                     |
| Korea                       | Existing Chemicals List (ECL)                                     | No                     |
| New Zealand                 | New Zealand Inventory                                             | Yes                    |
| Philippines                 | Philippine Inventory of Chemicals and Chemical Substances (PICCS) | No                     |
| United States & Puerto Rico | Toxic Substances Control Act (TSCA) Inventory                     | Yes                    |

\*A "Yes" indicates that all components of this product comply with the inventory requirements administered by the governing country(s)  
A "No" indicates that one or more components of the product are not listed or exempt from listing on the inventory administered by the governing country(s).

## 16. Other information, including date of preparation or last revision

|                             |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
